FREE SINGING COURSE IN FOUR-PART HARMONY

Singing is fun. Singers live longer. Singing is social. We think more people should experience the joy and satisfaction of singing - so we are introducing a new 6-week course for women to do just that.

- Would you like to sing?
- Would you like to harmonise?
- Are you already a regular singer?
- Are you a singing novice?

We are starting a brand new singing course for women. It starts on **Tuesday 7th September** and will run for **6 weeks to 12th October**.

The course will cover basic vocal technique for choral singing and, in the process, you will learn a new song. Plan to bring your friends and relatives to the final evening on 12th October, because we will stage a mini-concert, featuring the new song and you will be singing in the chorus!

Each evening will start at **7.45pm** and finish, after coffee, at **9.15pm**. In total, that's nine hours of tuition completely FREE. What's more, it will be lots of fun - we guarantee it!

If you sing regularly in another choir or group, this course will give you the chance to try something new or just brush up on some of your vocal technique.

If you are a complete novice at singing, this course will help you find your voice and boost your confidence. Have you always wanted to sing but just never got around to it? Maybe the last time you sang was in school. Maybe you are a bit self-conscious or shy.

Whatever your background, if singing is your thing, this course has something for you.
